Compiler, Mysore Gazette.

DEPARTMENT OF AGRICULTURE IN MYSORE.

Circular No. 34, dated 14th May 1923.

The campaign against the pest known as the Kamblihula having now been carried on in the marginally noted villages year after year for the past ten years, the Director of Agriculture in Mysore considers that the time has now come when the raiyats of the villages, may be trusted to take to the remedies without departmental initiative or supervision. The Director has therefore decided to transfer the activities of the department to other areas where the pest is now assuming dangerous proportions and where the raiyats have not yet been familiarised with the results of organised campaign on a large scale. The Director trusts that the absence of the Entomological Staff in the marginally noted villages will not make any difference in the thoroughness and extent of the campaign against the pest there. He feels it necessary to warn the raiyats, however, that any neglect to take suitable measures at the right time may lead to the pest becoming serious again and causing considerable loss to their dry crops.
